

MUDDY WATERS

PROFILE

I am a self-motivated & resourceful college graduate who is seeking a graphic design position at a successful company. I am a relentless proofer & always view things from multiple perspectives. I stay curious & have an impeccable attention to detail.

I enjoy creating expressive solutions to problems and overcoming the challenges that they provide. I have a honed sense of design, with an organized approach to problem solving.

Alongside graphic design, photography and music sit close to my heart. I have been shooting photographs and making music since I was thirteen.
